About Zeta

Zeta is a next-gen banking technology company. Zeta's platform enables financial institutions to launch extensible and compliant banking asset and liability products rapidly. Its cloud-native and fully API-enabled stack supports processing, issuing, lending, core banking, fraud, loyalty, digital banking apps, and many other capabilities. Zeta has 1700+ employees with over 70% in technology roles across locations in the US, UK, Middle East, and Asia - representing one of the largest and most capable teams ever assembled in banking tech. Globally, customers have issued 20M+ cards on Zeta's platform. Visit us at www.zeta.tech or follow us on LinkedIn, YouTube, and X.

Sparrow Financial

Sparrow is a credit card for underserved Americans, powered by Tachyon and Neutrino. In under 6 months, the Sparrow card has become a leading card in the US for the thin-file and below-prime credit segment, thanks to its modern approach and amazing customer experience.
